*There is no match for  
true paving expertise!*

**JACK OF ALL TRADES**

**VS.**

**TRUE EXPERTISE**

## For winning results without exception...

For over 30 years, Rose Paving has self-performed paving services for commercial and industrial properties. We possess a true understanding of best practices and a dedication to our trade that is unmatched by any other contractor. The difference begins with our unique business model that incorporates:

**One Focus.** Rose Paving is not just like any other national service provider. We focus solely on parking lot management. Our belief is that a contractor performing multiple exterior services is unlikely master of every one.

**Educated Personnel.** Our staff is comprised of knowledgeable personnel with technical training on product application to provide clear options and benefits concerning various repair methods.

**Quality Control.** Your parking lot means more to us because we know that a clean, well-maintained parking lot is a reflection of your business. Our unique, 20-point quality assurance program verifies your satisfaction from start to finish.

**Timely Communication.** We set the industry standard for personal communication. Whether it involves reviewing project scope, scheduling, or answering questions, we are in touch consistently and always at close reach.

...rely on the pioneers of national paving!

Call Rose Paving toll-free at **888-773-ROSE** for superior service and solutions anywhere in the country or visit us at [rosepaving.com](http://rosepaving.com).
