

PAVING CO.

Corporate Headquarters

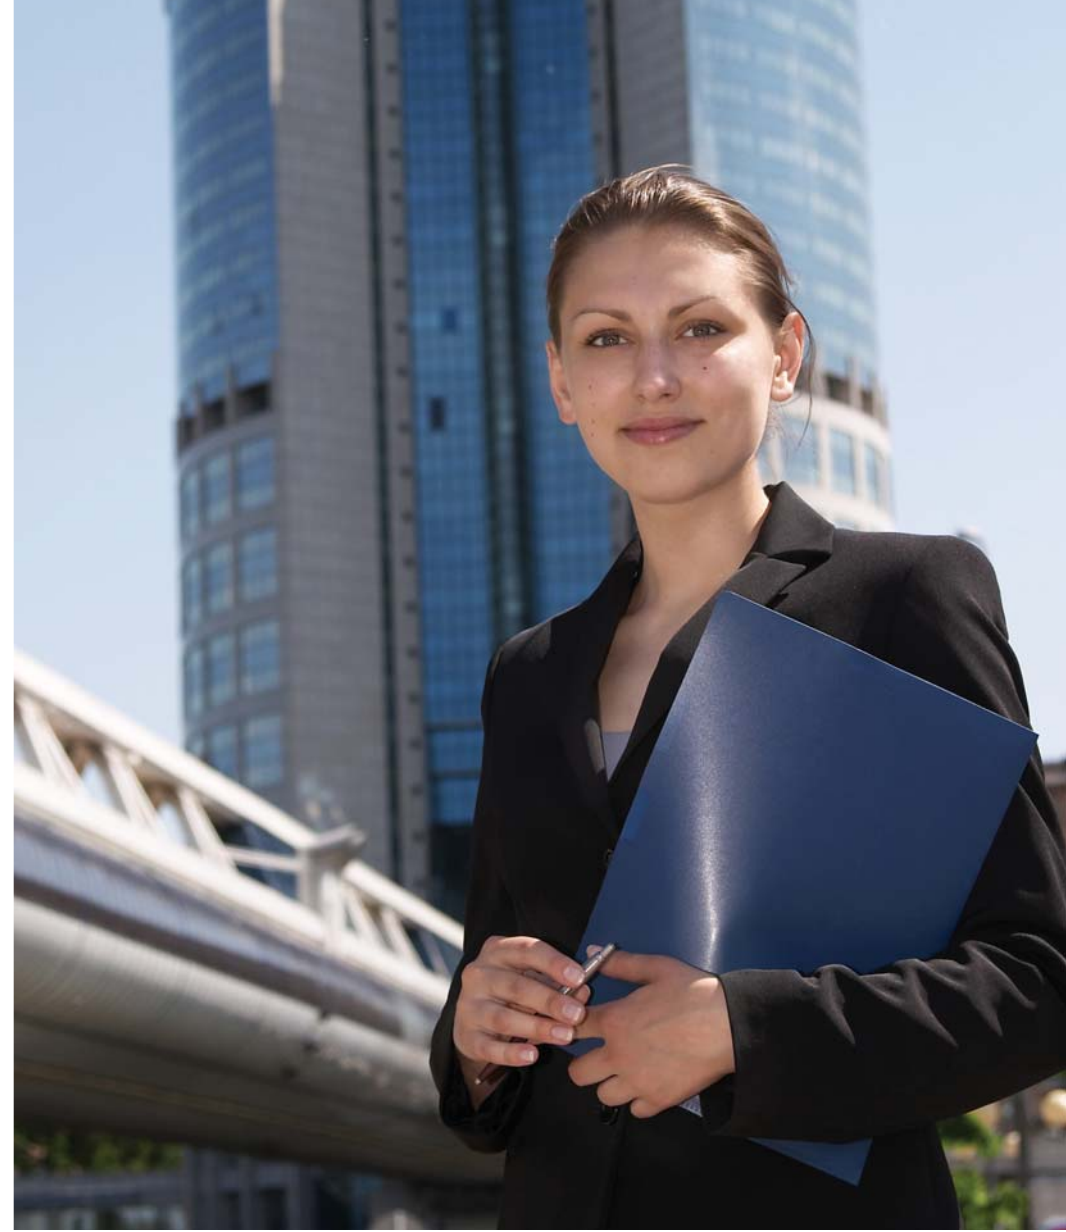

7300 W. 100th Place

Bridgeview, IL 60455-2414

*Are you looking for a
little extra peace of mind?*

This Year I Resolve to...

- Do more with less
- Balance the facilities budget
- Discover new ways to mitigate risk
- Manage time more effectively

Turn Resolutions into Reality...

Do more with less. In spite of demand, you can't be in multiple places at once. But, Rose Paving can. Our project managers specialize in overseeing all aspects of parking lot maintenance so you can concentrate on other tasks at hand.

Balance the budget. Get the most for your maintenance dollar with systematic and detailed solutions designed to maximize pavement life and save money.

Mitigate risk. Be proactive with parking lot maintenance, especially in high-traffic areas, and reduce time spent reacting to accidents or liabilities after damage has occurred.

Manage time effectively. Rose Paving can help you catch defects and correct them when repairs are most economical. Work can even be scheduled in stages or performed after-hours so that business continues without interruption.

...and Relax All Year Long!

Call Rose Paving at **708-430-1100** to get started or visit us at rosepaving.com.

“Rose Paving’s project managers devoted all of their time to my site for the duration of the work; although I normally visit the property at least once a week, it was nice to know the experts were on hand every day.”

- RREEF
